

A CARD

We feel indebted to the people of Richmond and surrounding country for the generous and liberal patronage extended to us during our Removal Sale, and take this means of showing our appreciation. The crowds which have thronged our store daily since our first advertising sale, has proven the existing confidence of the general public in our methods. It is the result of forty-three years' legitimate business dealings in this community, and proves to our satisfaction that fair dealing and honest methods are appreciated.

In the columns of this paper to-day appears the announcement that our sale will continue until the closing of our doors for good and ever at Main and Fourteenth Streets. Our reason for continuing is just as honest as our reason for beginning the sale. Stock must be sold, and will be at low prices offer any inducement. We are to occupy our new store, 313 East Broad Street, on or about August 1, and it is our intention to open with an entire new stock of clothing, hats and furnishing goods of the highest class, for men, boys and children.

K. Fisher & Son,
Main and Fourteenth Streets.

GOVERNOR'S RACE IS NOW UPPERMOST

Important Conferences Held Here in the Interest of Both Candidates.

INROADS ON THE MACHINE

Harry Tucker's Friends Say That All the Leaders Are Not for Mann.

With just one month left in which to complete their canvases of the State before the primary takes place, Judge Mann and Harry S. George Tucker are making a strenuous fight for the Democratic nomination for Governor, with the result in great doubt, according to strong leaders on both sides of the controversy.

The past week has demonstrated the activity of both of the candidates. Politicians of prominence from Washington and other sections have been frequently in the headquarters of Judge Mann, though some of them came to give out statements for publication. One of the callers thus mentioned is regarded as an astute leader in State politics. He declined to be interviewed for publication concerning Judge Mann's prospects, but said to me: "It looks pretty good to me."

The Mann men have held important conferences during the past week. This fact is not denied by the closest advisers of the Nottoway candidate, though it is said that those in conference were only talking over routine matters relating to the conduct of the campaign.

Tucker's Friends Active. With the renewed activity on the part of the Mann forces comes a corresponding renewal of energy on the part of the friends of Mr. Tucker. The Valley candidate spent the last days of the past week in his headquarters at Murphy's, having left on Thursday for the Southwest, which section of the State is claimed by both sides.

While in the city Mr. Tucker told some of his close friends that up to this time he has not been in touch with his opponent, but that from now on he would make it his duty to get Judge Mann that he and his friends would have to sit up and take notice. Mr. Tucker will speak in Charlottesville, the home town of United States Senator Martin, in a few days. It is a fact worthy of mention that in this particular section of the State Mr. Tucker has made great inroads upon what is known as the machine organization. It is understood upon high authority that former Governor Judge H. T. W. Duke, one of the most prominent leaders of the machine forces in the Piedmont section, as well as a warm supporter of Senator Martin, is an out and out supporter of Mr. Tucker.

Extends Much Further. In furtherance of the view that the machine forces are badly split between Mann and Tucker, it may be stated upon reliable information that Colonel George S. Shackelford, of Orange, who has always been looked upon as one of the important cogs in the big wheel of the machine, has been seen in the city, where he has been in touch with both branches of the General Assembly, says that some of his old-time associates are characterizing him as a "back peddler," but he seems willing to stand pat upon his personal choice for Governor. Mr. Tucker has an engagement to speak in Nelson county, which is likewise in the Piedmont section, on July 26, that being Circuit Court day. Judge Mann has already been to Nelson, which is regarded as one of Mr. Tucker's strongholds.

Extends Much Further. Governor Swanson carried the county over both his competitors four years ago, though Judge Mann ran next to him over Captain Willard. It is said that Mr. Tucker knows nearly every voter in Nelson county by name, having been a great favorite in that section during his long incumbency as Congressman from the Tenth District.

Judge Mann's only announced engagement is for Gloucester Courthouse to-morrow. It looks now as if the campaign will be marked by renewed interest on the part of the candidates, as well as the voters.

DIABETES

It was not easy for us to believe that Diabetes is curable, but the first case we saw in person, which was astonishingly convincing. We were considering the purchase of Fulton's Compound and were looking for some one to try it on. One of our number knew Charles A. Newton, the yardmaster of the S. P. R. I. R. R., who was a very worthy man. He also knew that Newton had Diabetes, and was in a hospital in the capital city, and that his recovery seemed impossible when he last heard from him. A letter was written to Newton that Fulton claimed his Diabetes Compound cured Diabetes, and that we were to know from our friends if this was so, and that if he (Newton) would take it that we would send him a supply of it. Newton replied to the effect that some four or five months before we wrote him he had heard about the compound, had taken it, that the sugar was nearly out and he was almost well. His complete recovery followed, and he told an S. P. engineer who had Diabetes and he recovered.

For free literature address John J. Fulton Co., 212 First Street San Francisco, Cal.

Fulton's Diabetes Compound can be had by your agent in your city, Owens & Minor Drug Co.

We desire all patients to write us who are not getting the usual improvement by the third week.

NEW EXCHANGE IN FULL OPERATION

Twenty-five Girls Begin Work at Midnight to Save Public From Annoyance.

Just after the clock struck 12 last night, employees of the Southern Bell Telephone Company cut a maze of "jumper wires" on the main distributing frame and threw hundreds of subscribers from the old to the new exchange. It is a fact worthy of mention that in this particular section of the State Mr. Tucker has made great inroads upon what is known as the machine organization. It is understood upon high authority that former Governor Judge H. T. W. Duke, one of the most prominent leaders of the machine forces in the Piedmont section, as well as a warm supporter of Senator Martin, is an out and out supporter of Mr. Tucker.

Extends Much Further. In furtherance of the view that the machine forces are badly split between Mann and Tucker, it may be stated upon reliable information that Colonel George S. Shackelford, of Orange, who has always been looked upon as one of the important cogs in the big wheel of the machine, has been seen in the city, where he has been in touch with both branches of the General Assembly, says that some of his old-time associates are characterizing him as a "back peddler," but he seems willing to stand pat upon his personal choice for Governor. Mr. Tucker has an engagement to speak in Nelson county, which is likewise in the Piedmont section, on July 26, that being Circuit Court day. Judge Mann has already been to Nelson, which is regarded as one of Mr. Tucker's strongholds.

Extends Much Further. Governor Swanson carried the county over both his competitors four years ago, though Judge Mann ran next to him over Captain Willard. It is said that Mr. Tucker knows nearly every voter in Nelson county by name, having been a great favorite in that section during his long incumbency as Congressman from the Tenth District.

Judge Mann's only announced engagement is for Gloucester Courthouse to-morrow. It looks now as if the campaign will be marked by renewed interest on the part of the candidates, as well as the voters.

GENERAL HOLIDAY HERE TO-MORROW

Fourth of July Will Be Celebrated on the Fifth Instead of To-Day.

WARNING TO SMALL BOYS

May Make as Much Noise as They Please, but Must Not Use Crackers Above No. 5.

Because the Fourth of July this year falls on Sunday the celebration will take place to-morrow, and the small boy will play havoc with gunpowder and himself on that day instead of the Sabbath morn. Most of the stores, the banks, the City Hall and other public places will be closed down to-morrow, and there will be a general celebration of the Declaration of Independence, though many people will celebrate without knowing or caring why they are allowed to turn all the demons of noise loose on this particular occasion.

The small boy will be allowed to blow up anything in reason—including himself and his friends—but there are certain species of dangerous articles which he may not use and which dealers in fireworks may not sell him without penalty.

Crackers Sell No. 5 Crackers. Cannon crackers designated as No. 5 and beyond this mark are tabooed, and he may neither use or buy toy pistols. Legal minds which have investigated the subject have discovered that the children of the State and country can inflict enough harm on themselves with firecrackers of a standard below the mark tabooed, and so that the annual slaughter may not be too general and effective, legislators have prohibited six-inch guns and other destructive firearms and fireworks.

The ambulance surgeons will be notified in ample time to be ready for the fray, and they will have their wagons ready to go out on a moment's notice to gather up the pieces and patch them together as best they can. The police will be on duty in force, and they will have their wagons ready to go out on a moment's notice to gather up the pieces and patch them together as best they can. The police will be on duty in force, and they will have their wagons ready to go out on a moment's notice to gather up the pieces and patch them together as best they can.

Small Boy the Star. With the exception of a few people, everybody has a holiday. The small boy will be the star of the day, and he will be allowed to turn all the demons of noise loose on this particular occasion.

Will Observe Holiday. The regular monthly meeting of the Common Council, which is scheduled for to-morrow night, will be postponed to the same hour on Friday night. The committee on the new directory, which was appointed by the council, will meet at 7:45 o'clock. The committee on the new directory, which was appointed by the council, will meet at 7:45 o'clock.

Amateurs to Perform for Charity to-morrow Night. The moving picture and vaudeville show, which is being given at the Broad Street Ball Park, is being well patronized, and the outlook for a substantial increase in the treasury of this institution during the coming week is excellent.

Expect Many Applications When Recruits are Called. Up until a late hour yesterday afternoon no notification had been received by the United States army recruiting station from Washington of the opening of the ranks of the infantry, cavalry, artillery, coast and coast artillery for recruits, though it was expected that this would be done.

Do You Need Hostetter's? That just depends. If the appetite is poor, blood impoverished, nerves weak, or if you are troubled with Sick Headaches, Heartburn, Belching, Cramps or Diarrhoea, you need it badly—the sooner the better, but be sure you're getting the genuine.

Do You Need Hostetter's Stomach Bitters? It will quickly correct these ills and thus prevent a spell of Indigestion, Dyspepsia, Biliousness and Constipation. We urge you to try a bottle this very day.

J. B. Mosby & Co.

STORE CLOSED ALL DAY

MONDAY, JULY THE 5TH.

Read our advertisement in Tuesday's papers for our July Bargain Feast.

HIGHWAY PLAN GETS BIG BOOST

(Continued from Page One, Column 1.) roads were found to be in excellent condition for seven miles beyond Glen Allen, but for two miles on either side of Ground Squirrel Bridge had holes and ruts were encountered. Mr. Gilman, a prosperous farmer, who resides within a mile of Ground Squirrel Bridge, impressed with the value of good roads and alive to the advantage of his section securing the highway, undertook to see the county supervisor at Ashland, and to have the road put in better shape by Wednesday afternoon, when the scout cars will pass that way toward Richmond.

Carlin Indorses Movement. Members of Congress from Virginia are enthusiastic about the national highway movement. Congressman Carlin says: "I am heartily in favor of the proposed road from Washington to Richmond. I do not believe that any public improvement is more important to the people of the State, and to those of the national capital, than the building of the proposed highway, which is especially interested because I represent the congressional district through which the road must necessarily pass. The most direct route, as well as the most picturesque, historic and useful, would be from Washington to Alexandria, Alexandria to Fairfax, Fairfax to Manassas, Manassas to Culpeper, Culpeper to Orange, Orange to Louisa, Louisa to Richmond, and anticipate that this will be the route which will finally be adopted for the reasons I have given. If this route should be selected, it will be found that the people of the section through which it passes will give it every encouragement."

The Washington Post and Times-Dispatch are to be commended for their splendid efforts, and should the movement prove successful they will be entitled to the credit. Personally, I shall give it every assistance in my power, and will go as the guest of The Times-Dispatch over the route, with a party, which will leave the Washington Post Building at 6 o'clock on Tuesday morning next.

Petersburg is anxious to have the proposed highway extended so as to include the city. It is said that the people of Petersburg are the original good roaders in the South. This of course is in a large measure by Representative Luster, from that district. He said:

"The good roads movement as mapped out by The Times-Dispatch and Washington Post is a grand scheme. Not only do I wish it success, but will endeavor to see that it is carried out. Roads first, last and always. Down in Petersburg, where I come from, we think of no other civic improvement as we do of good roads. To section in the United States is doing as much good road building as we are. We are building 100 miles of new roads all of which lead out of our city. Every dollar raised by the citizens is covered by a like amount by the business men's clubs. We have bonded everything in sight, and would bond some more if the law would permit us."

Cooler Weather Coming to-day. Temperature Came Down Last Night from Its High Perch. No Rain on Card.

If the prognostications of Section Director Edward A. Evans, of the United States Weather Bureau, hold good Richmond to-day will be visited by cooler weather and no rain, affording an ideal day for the celebration of the Fourth of July. The temperature conditions to-morrow, Director Evans declared last night that was "going too far ahead for him." However, indications are for fair weather to-morrow, when young America will have its innings, and bring into play "baby-sitters," which may disturb the elements and cause Jupiter Pluvius to descend.

Representative James Hay, of the Seventh Congressional District, said that good roads meant the success of any community. He said that the project of the Washington Post and Times-Dispatch to build a national highway from Washington to Richmond.

"Any movement for good roads in any section shows a progressiveness on the part of the people and should be encouraged. In the Valley of Virginia, commonly known as the Shenandoah Valley, the finest roads in the State or as fine as any will be found where, and the people will always have good roads. Good roads in the rest of the State, however, would be of material benefit to us, and the time will come when there will not be a dirt road in the State."

Preparing for Scouts. EMPORIA, Va., July 3.—The Washington Post-Times-Dispatch scout cars now attempting to establish a route between the national capital and Jacksonville, Fla., are headed this way, and will come through Emporia. To put the highways in good condition mapped out by the scout cars will not cost any great sum, but the money will be expended for a good purpose. Both the Post and the Times-Dispatch will tell the world what Greenville did and what she is doing for good roads in Virginia. The scout crews who have been good everywhere they are now looking for good roads. Let the people of Emporia and old Greenville come to the front and repair the roads running north and south of Emporia at once.

Depends on Board. Howlers Anxious for Another March. Members of Battery A, Richmond Howlers, and their friends are awaiting with interest any action of the board of military affairs, which has an appropriation for the command to make a practice march this summer.

Children Cry for Fletcher's Castoria. A Piano Which Deserves Your Confidence. The Matchless.

Blues to Go on March. Company C Will Moke From Petersburg to Drewry's Bluff. Company C, Richmond Light Infantry Blues, will go on a special car to Petersburg, and will be back here from there to Drewry's Bluff, on the James River, where they will go in camp to-morrow night. Sunday night, though all members will be unable to make the trip, it is expected that a large number will participate in this brief bit of military life.

Foreign License Issued. A license to do business in Virginia has been issued to the Franklin Fire Insurance Company, of Philadelphia, an incorporation organized and existing under the laws of the State of Pennsylvania. The company has been authorized by the commission, appointing Arthur L. Pleasant, of Richmond, attorney-in-fact, to do business in this State, authorized by charter, \$100,000. Object: Fire insurance business.

Moves to Her Summer Home. Mrs. Mosby D. Hoge is spending the summer in her new home near the Pump-House. Her friends can communicate with her by telephoning Madison 114.

Do You Need Hostetter's Stomach Bitters? It will quickly correct these ills and thus prevent a spell of Indigestion, Dyspepsia, Biliousness and Constipation. We urge you to try a bottle this very day.

GAVE HER CHILD TO HEAVY TRAVEL TO COASTWISE POINTS

Geneva Coke Signed Papers by Which Eleven-Year-Old Girl Was Adopted.

Though on June 12 she had given the juvenile protective society, complete control over her eleven-year-old child, Ellen, according to documents produced yesterday, Geneva Coke, formerly an inmate of the City Home, came to Richmond Friday night in search of the girl, and being unable to secure quarters at the Associated Charities, where the child is now being provided for, she sought shelter at the First Police Station, despite the fact that she is alleged to have had a sum of money with her.

The woman lives with her parents on the Chesapeake and Ohio Railway, near Richmond, and no reason at all can be attributed for her coming to the city in search of the child, according to a statement of Bay, James Buchanan, general secretary of the Associated Charities, and also secretary of the juvenile protective society. The woman's father, who is said to be a prosperous farmer, and who has supported his grandchild since her birth in 1897, was in Richmond yesterday and called at the Associated Charities building.

When the woman learned of her father's presence here after a second visit at the association headquarters, she left suddenly, and it is not believed that the woman was aware of the fact that his daughter was here. Since she left the police station yesterday she has not been seen.

When she signed over before a notary public the care of her daughter to the juvenile society, the Coke woman relinquished all responsibility and signed an agreement that she would not attempt to see her without permission of the proper officials. Efforts are now being made by Dr. Buchanan to secure a home for the little girl, who is unusually bright and pretty.

AMATEURS MARCH

Dixie Grays Trump to Petersburg July 4. As an outting for the Fourth of July two squads of the recently-organized Dixie Grays yesterday afternoon began a practice march in Petersburg, and will remain in that city until to-morrow afternoon, when they will begin their return to Richmond. The squads, whose ages range from sixteen to nineteen years, are in charge of Lieutenant Charles Wintress and Sergeant Tucker, and it is believed that the march will be of unusual benefit to the amateur soldiers and educate them in many ways regarding military tactics. The squads were quartered during their stay in the Cockade City could not be learned last night, but it is understood that arrangements for this had been made previously.

Sheriff Epps on Vacation. On advice of his physician, Sheriff Epps has gone away for several days. He is now in Charleston, S. C., visiting his daughter, Mrs. Wingo. During his absence Sheriff Elett J. Boyer will have charge of the office.

PLEASING FACTS FOR MANKIND

Just at present the thought of bills coming in makes great drops of perspiration ooze from the pores of all mankind. The first of the month's bills and the hot weather combined will produce perspiration on the most cold-blooded individuals in these times. A one way to avoid this is to take advantage of the special mid-summer offering in the big store of J. L. Berry & Co., Eleventh and Main Streets. It is now old established custom in this store not to carry any stock from one season to another, and to sell all goods in the seasons for which they are made, and not wait until the end of the season to sell. In conformity of this practice this store is offering 75c and \$20 men's suits for only \$12.50. Every suit is up-to-date in every particular and of the uniform standard of Berry's clothes, which is the mark of material, character and reputation of appearance, and every piece of clothing or furnishing from this store is recognized as the standard. The boys' suits are not forgotten in this sale, and their suits, which have been sold at \$8.50, \$7.50, \$6.50, and \$5.50, are being sold for \$4.75 and \$3.75. These suits will keep the men and the future men of the family nicely dressed without the big bills, which are making men men perspire these warm days.—Adv.

VIOLATED BUILDING CODE

Mrs. Henry Pye Fined \$20 for Not Building Retaining Wall, But Appeals. Because of a complaint by the city, Mrs. Henry Pye was fined \$20 for not building a retaining wall at her property at 144 East Broad Street, near where the Seaboard Air-Line Railroad tunnel. Mrs. Pye was fined \$20 in Police Court yesterday morning. Her attorney, John Lamb, took an appeal and the matter was certified to the Hustings Court on July 5.

HEARD EVIDENCE OVER PHONE, THEN FINED BALL PLAYER. Justice Crutchfield Sat in Judgment, With Receiver in His Hand, and Guibeen Had No Chance to Explain. Taxed to Tune of \$11.30.

The course of justice, like the course of true love, does not always run smooth, and when Justice Crutchfield was called up at his home yesterday afternoon and informed that Manager Guibeen of the Portsmouth baseball team, was being held in the Second Police Station on a charge of assaulting Umpire Evans, he heard part of the evidence over the telephone, and laid down his dictum—\$10 fine, with costs, making it \$13.30 in all.

Though Guibeen's side of the case was not heard, the fine was regarded satisfactory by all concerned. Guibeen appeared before Squire J. A. Purdie, who did the telephoning. He stated the case to Justice Crutchfield, so that it might be disposed of without any delay, and the ball player was thus saved the ignominy of going to court with the other rabble. After paying up he was allowed to depart. It is, to say the least, rather unusual for the law to take such quick action, for the law is famous more for its delays than for its dispatch of business. But a baseball player, whether he be in the right or wrong, is more or less of a hero in the public eye, and as a rule, he is accorded more liberties than are allowed to the average man. So Mr. Crutchfield listened to the evidence, as related to him over the telephone, and laid down the law. Guibeen, it seems, had no defense, and he did not attempt to fight the case. He stood by, a silent witness to the telephoning, and took the fine with more philosophy than he exhibited at some of the decisions of the court. He later reserved his decision as to the assault until conference with Jake Wells, president of the Virginia State League.

Dr. Kelly Returns Home. Dr. Gliby C. Kelly, pastor of Broad Street Methodist Church, has returned to the city and will preach at the morning and evening services today.

Oh! That Awful Gas. Did you hear it? How embarrassing. These stomach noises make you wish you could sink through the floor. You imagine everyone hears them. Keep a box of CASCARETS in your purse or pocket and take a part of one after eating. It will relieve the stomach of gas.

CASCARETS are a box for a week's treatment. They are the most reliable in the world—million boxes a month.
